

RELEASE

Important reminder: choirs.

Especially during this Christmas season, we remind you of the following public health guidelines regarding choirs.

- Unless the choristers are part of the same family bubble, we will refrain from having a choral ensemble involved **in all circumstances** (concerts, celebrations, etc.).
- If necessary, one or two singers will perform at a distance greater than 2 m from the public, respecting the same distance between them.
- Participants will be encouraged to whisper the words provided for in the rituals.

It should also be noted that the person presiding over a liturgical celebration or a volunteer who is speaking at the microphone (readings, announcements) is not required to wear a mask when speaking if he or she is more than 2 m from the participants.

Jean Roudy Denois, psj
